Litigation Consulting: Expertise and Constraints

- Primarily interested in advertising, marketing and platforms.
- I have published over 20 papers on various advertising topics, including in platform settings. I am a leading researcher in areas including advertising effect estimation, advertising fraud, consumer attention and evaluation of advertising, data-driven advertiser strategies, and multi-sided platform markets.
- Please do not contact me if you seek to dictate an opinion to an expert. I will need to read the complaint and response before I can agree to participate in a case. I will only express opinions that I have substantial basis to believe are true.
- I will not work on more than 1 or 2 cases at a time. I prefer to work with a support firm.

Litigation Consulting Experience

- U.S. v. Google, Case No. 1:23-cv-00108, US District Court for the Eastern District of Virginia (2024)
 - Wrote 113-page expert rebuttal report, provided 7 hours of deposition testimony
 - Named on the witness list, asked to prepare to testify. However, the other side did not call the expert I rebutted, so the client rested without rebuttal.
